

Task 4 Exercising Poppy

5. The vet tells Jamie that a dog like Poppy should walk an average of 3 miles every day.

Jamie records how far he walks with Poppy each day for two weeks.

	Mon	Tue	Wed	Thu	Fri	Sat	Sun
Week 1	2	4	1.5	0.5	1.5	8	7
Week 2	1	2	1.5	2	4	3	4

Jamie is not sure if he followed the vet's advice both weeks. How can he check? Explain your answer.
Show all your working out. (7 marks)

14. Jamie wants to draw a chart showing the distances she walks with Poppy.

He records how far she walks for one month.

6 miles	3 miles	2 miles	3 miles
4 miles	5 miles	7miles	2 miles
3miles	3 miles	8 miles	8 miles

- a) What is the range of miles Jamie walks in this month?
(1)
- b) How many times does Jamie walk **at least** 5 miles with Poppy?
(1)
- c) Organise this data into a table to make the task in question 14b easier to do.
(4)
